Important: Adequate ventilation is absolutely necessary. Adequate spacing between the logs is NECESSARY and MUST be maintained. Some carbon build up (sooting) may occur where flames strike the logs. If carbon build up (sooting) continues, rearrange top logs to allow more opening(s) for flame(s) before sooting becomes worse. If any sooting occurs outside of the firebox (i.e. on the walls), turn off unit immediately and contact a qualified professional service technician.

WARNING: Use ONLY Peterson Real Fyre burners and valves with this Real Fyre gas log set. Failure to do so may result in property damage or personal injury, and will void listings, certifications, and invalidate claims made to RHP. Contact your local Real Fyre dealer if you need more information.

This product is only warranted when used as part of a Robert H. Peterson Co. vented burner system.
WARNING: This gas log set is for use with R.H. Peterson Co. burners (and parts) ONLY.

CAUTION: Burn hazard! Logs will remain hot for some time after use.
If you need to reposition any log to maintain the proper layout, use heat resistant gloves or allow logs adequate time to cool before handling.

Failure to use Peterson burners and valves may result in a DANGEROUS situation and in property damage, personal injury or even death; will void listings and certifications; and will void any insurance coverage by R.H. Peterson Co. or our insurers.
Charred Angel (Split) Oak Log Placement Instructions (18/20" model)

**CAUTION:** Burn hazard! Logs will remain hot for some time after use.

This charred log set includes an ember screen and glowing embers. For G4 & G45 Series Burner Systems; refer to the main owner's manual for screen and embers installation. For G46 & “P” Series Burner Systems; DISCARD the screen and embers as they are not applicable.

All items for this log set are included in one (1) box.

*Although these logs are slightly shaped differently between CHNA and CHNS sets; log placement is the same (see III).*
