

On/Off Bluetooth Control

Models: RF-BTSR1(-B)

This On/Off Bluetooth Control is compatible with select Real Fyre burner systems and electronic devices.

For all information and videos related to installation, app setup, and operation, refer to the RHP bluetooth control web page. See below.

Visit www.realfyre.com/bluetooth-control/
or simply scan the QR code on the right.

- To scan, use your smartphone, open the camera app, and position your camera over the QR code. Then follow any prompts to access the link.
- A QR code scan app may need to be installed if your camera is not already setup to scan QR codes.
